B.Tech in Computer Science	AUTONOMOUS	CMR University SOET, BANGALORE	2022	9.41
PUC(PCMIP)	CBSE	Army Public School ASC C&C, BANGALORE	2018	84
SSLC	CBSE	Army Public School ASC C&C, BANGALORE	2016	91.2

PROJECT EXPERIENCE:

EMOJIFY [May 2021]

Technologies used: - FER2013 Dataset, Visual studio code, Python

It is an emotion detection program in which a convolution neural network architecture is build and the model is trained on FER2013 dataset for Emotion recognition from images. The live video feed is analyzed in real-time to capture the face and find out the expression. The facial expression is classified and mapped to corresponding avatar.

Scientific Calci [May 2021]

Technologies used: - Android Studio, Java

A Scientific calculator app built in Android Studio that functions similar to a physical scientific calculator. Java programming language is used for field validations. Gradle's and wrappers are used for assigning the SDK's and other runtimes platforms.

Library Management System using Java & MySQL [December 2020]

Technologies used: - NetBeans IDE, Java, MySQL

The librarian can login using credentials or sign-up. After logging in, they can view book list, add /delete book details to/from the program database. The issue book details, fine and due books details of the students are tracked.
